

Physics Cinema Classics Videos—C.E. Mungan, Spring 2003

This is a 3-disc series published by AAPT.

Use audio channel 1 to ask questions of the students and
channel 2 for an explanation of the phenomena.

Disc 1 Side A

Chap. 76—A person standing on a scale in an elevator.

Disc 1 Side B

Chap. 13—A nice presentation of the traditional monkey-gun demonstration.

Chap. 24—Illustration of the Coriolis force on a playground merry-go-round.

Chap. 28—Video footage of the “Barrel of Fun” amusement park ride.

Disc 2 Side D

Chap. 17—A discussion of how holograms are formed.

Chap. 44—A step-by-step presentation of how a van de Graaf generator works.
